EXPERIENCE

MERN stack developer
Arowwai Industries

2021 - Present

Worked as a MERN stack developer building responsive web applications using MongoDB, Express, React, and Node.js. Developed REST APIs, integrated front-end components, and collaborated with designers to deliver clean, scalable features..

Front end developer
Ginyard International Co.

2018 - 2020

Developed and maintained full-stack web solutions with the MERN stack, focusing on performance, security, and clean architecture. Implemented authentication, database schemas, and reusable React components to support business needs.

Graphic Designer
Salford & Co.

2016 - 2018

Created visually compelling designs for digital and print media, including logos, social media content, posters, and branding materials. Collaborated with clients to translate ideas into clean, creative visuals while respecting brand identity and deadlines
